14/03/25

Dear Parents

I hope you all thoroughly enjoyed World Book Day last week! We certainly did.

On Friday last week we also celebrated International Women's Day by joining in with the Barclays 'Let Girls Play' Football event. Well done to all that took part.

A reminder that next week on Thursday 20th March is Green Day, where we will be celebrating Road Safety. It will also be the school discos so please remember to sign up with the CSA for this. On Friday next week, the school will be closed to children as it is our INSET day.

I have sent two further emails out today. One about **attendance**, and the other about the ongoing **parking issues** outside of the school gates. Please take the time to read both of these carefully.

Thank you all for your continued support. Have a wonderful weekend.

Mr D Ware
Headteacher

Collective Worship: As we continue through Lent, we have been talking about the temptation of Jesus. Luke 4:1-13

What could you dedicate yourself to during Lent? Is there something you could give up or take up during this time? What will you do if you are tempted to stop or give up? Who could you turn to?

Key Dates

Green Day – Thursday 20th March
CSA School Disco - Thursday 20th March

Nathan R

14.03.25
Rosa R
Sam A

Attendance:

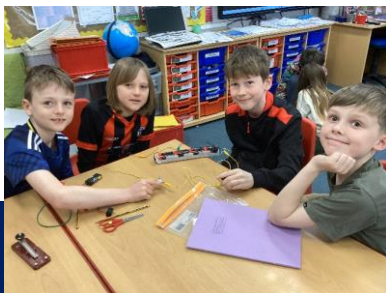

Hedgehogs: 97.6%
Foxes: 96.8%
Owls: 96.3%
Ladybirds: 95.2%

Ladybirds have been celebrating science week by building bridges with different thickness of card as well as looking at the life cycle of blue tits – including some lovely drawings of them.

Hedgehogs have been celebrating science week by experimenting with changing the shape of materials and the properties a material has to have to change shapes. They changed the shape of clay to make it float rather than sink. They also explored how they could change the shape of playdough and paper as they are both flexible to make sculptures and origami. They also experimented with how tall they could build a tower without it falling down.

Foxes have been learning about the water cycle in science this week. They have started two experiments to create their own mini water cycles which show evaporation, condensation, precipitation and collection in action. Ask them to explain each part to you at home!

Owls class have been experimenting with circuits; they have used switches, as well as bulbs and motors to explore how different voltage effects each of these.

Prayer: Dear God, thank You that during Lent we can think more about You and focus on You. We pray that You will help us with the positive things we choose to do this Lent. We pray also for all those in the world who have no power, no money, no food or have lost their way in life. Amen.

Easter Holiday Clubs on offer

- Easter workshops at Winchester Cathedral –

<https://www.winchester-cathedral.org.uk/event/easter-workshops/>

- UPBEAT Winchester

The poster features a group of children in red t-shirts performing on stage with microphones and a large star graphic in the background. Two circular insets show a child playing a guitar and another child playing drums.

YEAR R - YEAR 7
